Mr. Bryan Cutsinger, Director
Marshall County EMS
505 George McClain Dr.
Benton, KY 42025

Dear Mr. Cutsinger,

Thank you for the opportunity to quote your ambulance remount requirements. A remount and repair facility established in 1995, Select-Tech, Inc. is owned and operated by myself, Steve Feldhaus. Located in Middle Tennessee, I believe my company can offer your ambulance service many advantages not found at other, more distant, facilities. I have over 30 years' experience in the ambulance manufacturing, repair, and remount field. During this time, I have been involved in the remounting of literally hundreds of ambulances of various makes and models. We are certainly qualified and have the expertise to give your ambulance service a top quality remount.

Select-Tech, Inc. quotes the following to meet your needs per our conversations of items 1-38:

Remount your Type I Osage module onto 2018 F-450 \$111,500.00

This price includes but is not limited to include the following:

- 1) 2018 Ford F-450, 84" CA, 4x2, diesel ambulance prep chassis.
- 2) Remount your supplied Osage Type I module.
- 3) Install LiquidSpring suspension.
- 4) Trade-in of your old F-450 chassis.
- 5) Install cab-module crawl-thru access per existing configuration.
- 6) Install all new cab-module seals, mounting absorbers, and mounting fasteners.
- 7) Replace module upholstery as needed.
- 8) Repair/replace damaged Formica walls and trim as needed.
- 9) Replace all interior windows as needed.
- 10) Install new HVAC system.
- 11) Install new LonSeal LonPlate II #424 Gunmetal floor covering. Rolled up approximately 3".
- 12) Install all new stainless steel thresholds with non-skid tape at entry doors.
- 13) Verify proper function and reinstall existing siren.
- 14) Install new CPI through-bumper speaker system.
- 15) Install new door switches as needed.
- 16) Install new backup alarm.
- 17) Install new handheld spot light in cab.
- 18) Install new Whelen 900 series Super-LED warning lights w/ bezels.
- 19) Install (6) new Whelen 900 LED scene lights w/ bezels.
- 20) Install new LED clearance lights.
- 21) Install new Whelen 600 series LED stop/tail/turn light system.

- 22) Install all new exterior aluminum trim (rockguards, rubrails, drip rails, etc.).
- 23) Install chassis diamond plate running boards.
- 24) Install new Osage fenderettes.
- 25) Install new all-aluminum rear bumper with dock bumpers.
- 26) Install new kickplate assembly.
- 27) Install new Stryker single position cot mount.
- 28) Replace all door hold-open devices as needed.
- 29) Repair or replace any faulty power distribution system components found after thorough test.
- 30) Complete PPG paint system.
- 31) Install complete customer specific stripes, lettering, logos, & chevron per photos.
- 32) Install Phoenix brand stainless wheel covers.
- 33) Replace all exterior door handles, rotary latches, and locks as needed.
- 34) Install all new OEM weather-stripping on all exterior doors.
- 35) Inspect cabinetry integrity and repair/replace as needed.
- 36) Inspect and replace seat belts as needed.
- 37) Install Dri-Dek in exterior compartments as needed.
- 38) Verify complete function of all components/systems (i.e. shoreline/inverter, O2, vacuum).

Thank you for the opportunity to quote your remount requirements and I am sure you will be pleased with our service and quality if you again choose us as your supplier.

Sincerely,

Stephen M. Feldhaus
President
