Hello all.

In an effort to keep communication open and fulfill obligations to our state office, we would like to schedule a meeting with Fiscal Court. In the past we have discussed funding issues regarding the four flood-retarding structures we are responsible for maintaining. This year we would like to schedule a time to show you these structures and explain their purpose, current issues, and potential future problems. Dianna Angle, the Natural Resources Conservation Service Planner from the Benton Service Center will be guiding this meeting along with some of our board members. The logistics of vehicles, etc. will be worked out when we finalize the numbers of people attending. Dianna has the following dates available in the coming weeks.

February

13, 15, 16 or 21

March

6, 7 or 8

→ email what time on 6th

Please feel free to discuss this with the members of the court included in this email and let me know which date is best and which court officials will be attending. If you have questions, feel free to contact me or Dianna Angle at the number below or Kyle O'Dell our Chairman at 270.994.8220. Thank you.

Vicki Boatright
Admin. Sec./Ed. Coordinator
Marshall County Conservation District
