RE: Southwest One Industrial Park  
Roadway Base As-Built &  
US 641 Entry Roadway Plan Update  
Benton, Kentucky  
Project No. 18014

Dear Judge Neal:

Bacon Farmer Workman Engineering & Testing, Inc. (BFW) is very proud to be a continued partner on this project. The following is a proposal for an as-built survey of work already performed by the County Road Department and update the roadway plans for bidding and construction.

- |      |   |            |
|------|---|------------|
| I.   | <u>AS-BUILT SURVEY</u>  | \$1,790.00 |
|      | • Perform and as-built survey of the roadway work performed by county.  |            |
| II.  | <u>STONE BASE VERIFICATION</u>  | \$2,500.00 |
|      | • Perform spot checks of rock base installed for thickness with two locations at 50' intervals.                           |            |
| III. | <u>UPDATE ROADWAY PLANS</u>   | \$5,760.00 |
|      | • Incorporate as-built information into roadway plans and bidding documents.  |            |
|      | • Revise roadway design if determined it would minimize final costs of construction to match what is already constructed. |            |

We look forward to working with you in the future and should you have any questions or need further information, please contact our office at (270) 753-7307.

Sincerely,  
Bacon Farmer Workman Engineering & Testing, Inc.
