**Project Name:** 911 dispatch room unit repairs

HMC Service Company will supply the necessary labor and materials to complete the following according to state, local, and federal code:

- Inspect all existing duct.
- Seal leaks found in duct system.
- Insulate duct system where it is not insulated.
- Bring in water hose and a shop vac to clean evaporator coil.
- Test units operation.

**Proposed Price:** \$5,498.46

**Clarifications and Exclusions:**

- Does not include overtime or holiday hours
- Washing the evaporator coil with water hose may cause water to get on ceiling. We are not responsible for any water damages.
- This is not a permanent repair it is temporary way to get cooling till unit is replaced.

**Customer**

**HMC Service Company**
