Marshall County Ambulance Service
c/o Marshall County Fiscal Court
1101 Main Street
Benton, KY 42025

Dear Sir or Madam:

Jennings Communications and Consulting, LLC is pleased to provide this quotation for the Marshall County Ambulance Service P25 mobile and portable radios. This reflects our best understanding of the radios requested. Our proposal is for EFJohnson/Kenwood equipment, including six (6) dual remote head mobiles, one (1) single head remote mobile, five (5) dash mount mobile radios, two (2) base radios and ten (10) dual band portable radios. The remote mobiles can add additional frequency bands by adding another RF deck with no hardware changed to the remote heads. The multi-band portables can have additional frequency bands added with software keys. All radios proposed include P25 software keys for conventional operation. As an authorized EFJohnson and Kenwood dealer, Jennings Communications and Consulting, LLC provides warranty service and factory authorized repairs on all products.

The total proposal price is **\$78,284.00**. This reflects all prices at or below the NASPO negotiated "state" price contract pricing. Detailed pricing is provided in Attachment A. The pricing includes removal of existing radios, installation of new mobile radios and frequency programming of new radios. This proposal is valid for forty-five (45) days.

Please feel free to contact us with questions or clarifications we can make to the proposal. We are excited about the opportunity to provide a cost-effective solution for you agency.

Sincerely,

A handwritten signature in black ink, appearing to read "Ryan Jennings", is written over a white background.

Ryan Jennings
